NOTE FOR: DCI

SUBJECT: PFIAB Interest in NSSD-2/82

In regard to your appearance before PFIAB on 10 May, you should be aware that the matter of the NSSD-2/82 study on "Detecting and Countering the Foreign Intelligence Threat to the United States" was briefed to the Counterintelligence Panel (Mrs. Luce) of the PFIAB following public disclosures concerning it incident to Admiral Inman's resignation.

Mrs. Luce was informed about the study effort being undertaken, and she is aware that the study does not treat with the full scope called for in the President's directive. She and her Panel reportedly intend to monitor progress of the study and may additionally concern themselves with those directed study topics not included in the study.

As a related matter, it should also be noted that the PFIAB Counterintelligence Panel spent a day (on 16 April) reading the Multidisciplinary Counterintelligence Baseline report and the three sequential National Multidisciplinary Threat Assessments issued for the National Security Council in January 1979, January 1981 and March 1982.
